Log my practice findings, 2-3 times a week.	Detailed logs, graphing how I sight-read each practice I sight-read.	Mostly detailed logs, graphing most of my practice entires.	Somewhat detailed logs, graphing a couple of my practice entries.	Poorly detailed logs, with little information on how I sight-read.	Almost no detail on any entry, with very scarce entries to begin with.
Find resources.	Find 2-3 resources many teachers use as sight-reading tools, and why they are good.	Find 2-3 resources that many teachers use as sight-reading tools, and not much info on why they are good.	Find 1-2 resources that not many teachers use as sight-reading tools, with average info on why they are good.	Find 1-2 resources that not many teachers use as sight-reading tools, with terrible quality info on why they are good.	Find 0 (none) resources.
Find different ways to teach it.	Talk to and log 4-5 different teachers and how they approach teaching sight reading; quality entries.	Talk to and log 2-3 different teachers and how they approach teaching sight reading; above-average entries.	Talk to and poorly log 1-2 different teachers and how they approach teaching sight reading.	Talk to and poorly log 1 teacher and how they approach teaching sight reading; little to no detail at all.	Talk to 0 (none) teachers about how they approach teaching sight-reading.
Find and write about Sight Reading apps.	Compare and Contrast 3 different apps. Findings needs to contain useful and quality information.	Compare and Contrast 3 different apps. Findings have average to below-average information.	Compare and Contrast 1-2 different apps. Findings needs to contain useful and mostly quality information.	Compare and Contrast 1-2 different apps. Findings have below-average information.	Find one app and give little to no information about it.
